University of Melbourne Network of Schools (UMNOS)

In recent news to the community about the Network of Schools we outlined the work staff have been doing in working towards establishing a whole school focus. We are very excited to share that our focus is Feedback. So, over the 3 years, we will plan to build in Feedback in a more formalised approach to assist with school improvements aligned with our Annual Action Plan. Students, parents and staff will have various opportunities to give and hear feedback. This year staff will have professional learning around feedback and set up structures that will enable us to embed feedback into our ongoing practices. To assist us with this process, we will also work closely with a critical friend from the University Graduate school of Melbourne to help devise a school plan that will help us establish the steps we need to accomplish our goals for this year. We look forward to sharing the progress of our learning as it unfolds.
